

## Schippers, Mark Anthony - Consent Resolution Agreement

admitted to professional misconduct. In the 2004-2005 school year, Mr. Schippers engaged in behaviours that violated the professional boundaries between teacher and a female student. On one occasion, Mr. Schippers offered to give the student a backrub; on the second occasion, gave her a one-handed back massage and told her that she was a "distraction" to him; verbally communicated with her on a personal level; corresponded with her through MSN Messenger and sent her messages of a personal nature; gave her gifts; and inappropriately touched the student's leg on two separate occasions. On January 24, 2008, PISC approved the Consensual Resolution Agreement and Mr. Schippers' acceptance of a reprimand and his undertaking to participate in and successfully complete a boundary violations workshop.
